The Spitter performs 1x Bite per turn plus the following:

The Spitter performs an additional Bite at the end of the 3rd player's turn.

The Spitter injects **Poison** with each successful Bite. A failed ST results in full poison damage.

Starting with its first combat turn, the Spitter will perform **Web Spit** at a random player within a 20' range.

A failed ST by the character results in web entanglement and a -2 to Dexterity and a -2 to hit for the character. This effect is cumulative. A successful ST means the character dodged the attack. The webbing can be removed if a player dedicates his entire combat turn to its removal.

The spitter will perform Web Spit every other turn after the first.
