The Warrior Spider performs an additional Bite at the end of the 3rd player's turn.

The WS injects **Poison** with each successful Bite. A failed ST by the character results in full poison damage.

At the end of the last player's turn, the WS will **Leap & Bite** up to 30' onto a random character and perform

an additional Bite on that character. The character's ST will result in the following:

A failed ST results in full damage from the leap plus the character is knocked prone.

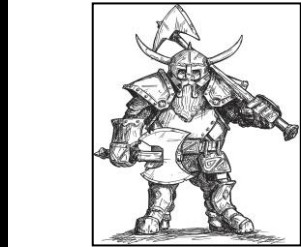

A failed ST with a natural "1" or "2" results in full damage from the leap plus the character is knocked prone and the Bite attack will be directed at the character's face.

A successful ST means the character avoided the leap and its subsequent Bite attack.

Bite: Melee weapon attack, 5' range

Poison: Instant damage after each successful Bite, successful ST results in 1/2 damage

Leap & Bite: Ranged attack, 30' range, occurs at end of last player's turn (see details)
